# Don't Axe the Tax!

In 2024, petitioners across the state hope to eliminate grocery taxes throughout South Dakota. Here's the short version of the details:

- Dakotans for Health submitted the required number of signatures to the Secretary of State to add an amendment to the state constitution. Voters will weigh in on this issue during the November 2024 election.
- The proposed initiated measured reads: "The state may not tax the sale of anything sold for human consumption, except alcoholic beverages and prepared food. Municipalities may continue to impose such taxes."

The last sentence of this proposed amendment implies that if passed, individual cities may continue to collect sales tax on groceries. This interpretation may be misleading, as South Dakota tax law states "if there is no authority at the state level, there is no authority at the municipal level." This means without a change by our legislators to the existing tax law, municipalities would not be able to collect this tax under the proposed amendment.

The average family of four in South Dakota spends \$1,200 on groceries each month. Taxes on that only add up to \$74.40. In a year, the grocery taxes only amount to approximate \$895 - much less than the average monthly grocery bill!

*Saving almost \$900 a year sounds great, but there are tradeoffs to eliminating this tax.*

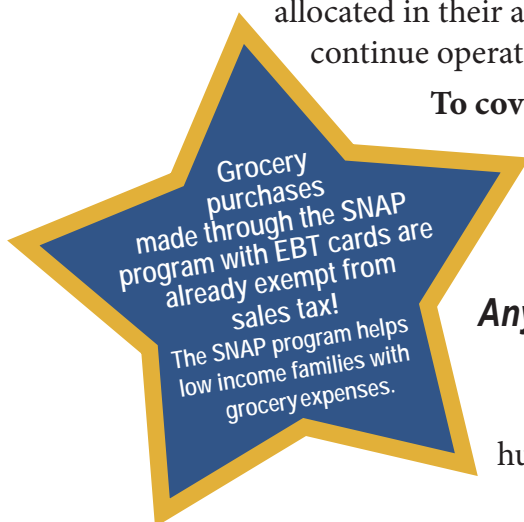

Governor Kristi Noem's office estimated that removing South Dakota's sales tax on groceries would result in a loss of \$102.4 million in the state budget. South Dakota currently spends every penny allocated in their annual budget, so they would need to make up this lost money to continue operating as usual.

### To cover the difference the state could:

- Implement a state income tax.
- Raise property taxes via opt out.
- Reduce or eliminate services and community investments.

***Any of these options could result in a significantly higher cost to taxpayers than \$895 a year!***

If this proposed ballot measure to repeal sales tax on goods for human consumption passes, it will result in a negative impact on the City of Brandon's departments and services..

**In Brandon, the taxes received from groceries put \$400,000+ in the city budget. The loss of that revenue could deeply impact our city.**

**Services and amenities that could be affected include:**

**Law Enforcement**

- Salaries
- Equipment
- Training

**City Maintenance**

- Snowplows
- Snow Removal
- Public Works Equipment
- Road Repairs

**City Parks & Recreation**

- Park Improvements
- Public Restrooms

# THERE'S CHARM IN THE BARN

## PRESERVING A PIECE OF BRANDON HISTORY

The Van Buskirk family has a long history with the City of Brandon. Starting with the first home built on East Cedar Street, then Kirkwood Truss manufacturing, which operated from 1972 to 1976. In 1973, Myron built a hardware store which was eventually converted to a grocery store. The housing subdivisions of Fleetwood Addition, The Bluffs of Brandon, and Eagle Creek have and continue to provide home options to the community. In the summer of 2023, Myron Van Buskirk and his family acquired approximately 140 acres of ground, which lies west of the Big Sioux Recreation Area. This area has been commonly referred to as the 'Risty land.' With this property came a homestead including a barn and silo. Many in the Brandon area, such as the Brandon Historical Society (BHS), City of Brandon, various citizens, and the South Dakota Department of Game, Fish, and Parks, feel this homestead and barn should be accessible and used by the public for various purposes. There has also been conversation about it being an interpretive center for the Big Sioux Rec Area or possibly a community heritage center.

The Van Buskirk's hope the property will be inspirational in its use and continue to exist as a reminder of the community's early settlers. The barn, estimated to have been built somewhere post 1910, is currently not suitable for public access. The city approved funding for a structural engineer to assess the barn and determine the feasibility for public use, as well as what improvements would be recommended to improve the barn's condition. The use of the barn would be determined by community partners who have committed to seeing this project succeed. Ideas are plentiful, but they need a waterproof structure and a governing organization to guide and fund the creation of a heritage center. Not only is there a need for community partners

to be involved in saving the structure, but the community also needs to be involved in the long-term management and maintenance of the land and barn. Participation and cooperation among the community, BHS, the city, and hopefully the Department of Game, Fish and Parks, will ensure this landmark becomes and remains a staple in the community and the area.

According to the BHS, the barn was constructed by Austin Risty, has a quartzite foundation with stone which likely came from the Rowena or east Sioux Falls quarries. The barn is positioned on a hill and offers a gentle slope down to the Big Sioux Rec Area. There is currently no public access to this area as it sits at the end of a private drive and will soon be surrounded by construction activity. The anticipated growth in this area, such as retail, business, office, and residential, should provide a great opportunity for the area to see daytime use as well as evening and weekend use by the public.

Brandon needs office space, and we hope office suites will be built in the general business areas of the development. The developers would really like to see a restaurant built in this area. To get a restaurant interested, you need rooftops and good daytime traffic through the area. A balance of retail and office would help encourage a restaurant owner to consider this area for their business. The transition from daytime workers to evening residents would be a high traffic area needed for the restaurant industry. The mix of residential density will also help with the housing numbers.

Ideally, the Van Buskirks would like to see the barn area provide opportunities for public education, such as an interpretive center, but also a location where the community would gather for outdoor concerts or arts in the park and other activities to bring people together.

# CITY FINANCES PROPERTY TAX & SALES TAX

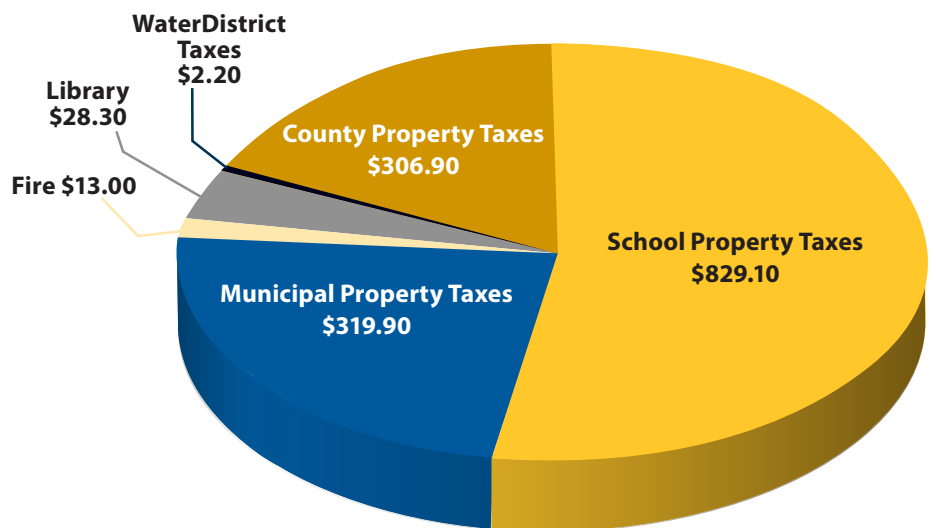

## PROPERTY TAXES (OWNER OCCUPIED ONLY)

Property tax is one source of revenue that supports the day to day operations of your City. The Minnehaha County Auditor's Office collects all property taxes and then distributes the taxes to the appropriate entity. The City receives about 21.34% of an owner-occupied residential property tax bill. Property tax revenue is a general fund revenue supporting police, fire, streets, snow removal, parks, pool and more. Property tax is one of the major sources of revenue for any City and without this we could not run your City. A worksheet to figure your taxes is available at [www.cityofbrandon.org/taxes](http://www.cityofbrandon.org/taxes). \*Please note this does not provide opt outs, Special Assessments or Frontage amounts if applicable.

2022 Taxes Payable in 2023

<b>Municipal Levy</b>	3.199	21.34%
<b>School Levy</b>	8.291	55.30%
<b>County Levy</b>	3.069	20.47%
<b>Water District Levy</b>	0.022	0.15%
<b>Library Levy</b>	0.283	1.89%
<b>Fire Levy</b>	0.130	0.87%

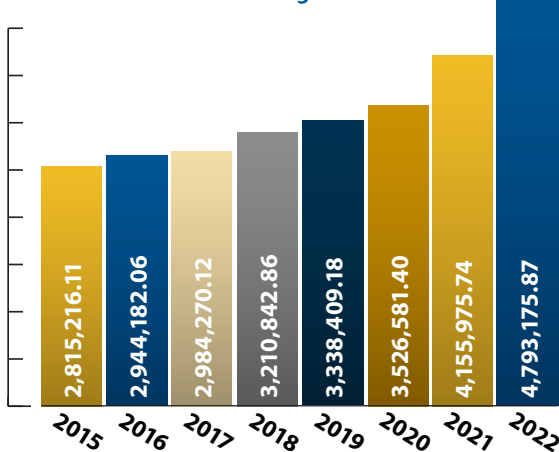

100,000 Taxable Value for Payable 2023

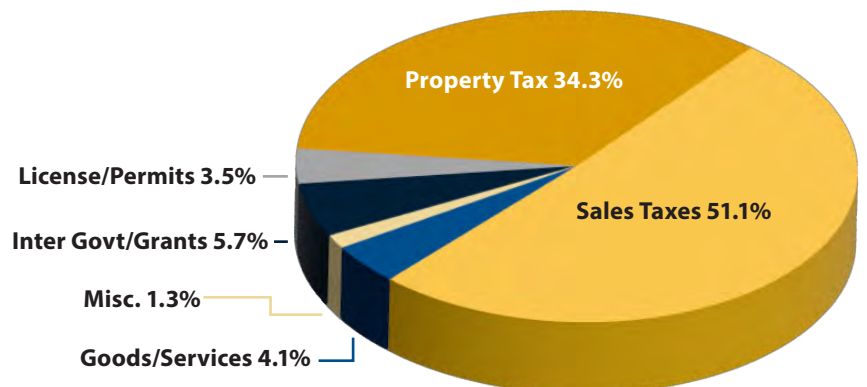

## SALES TAX

Sales tax is important to the City and another major source of revenue. This revenue source is not quite as consistent or predictable as property taxes. Sales tax changes with the economy. With every dollar you spend, two cents goes to the City's General Fund. Sales tax revenue is a key component in being able to improve your city. Sales tax pays for debt, projects and equipment in the General Fund.

# Hauntrepreneur

## *Embrace the Spooky Side of Starting a Business*

As summer approaches, seniors in high school are graduating and are being sent off to find their own path. Here's a secret, us adults are still trying to figure it out too. This is an exciting time in your life, you are still young and it's okay to try different things.

Maybe you have a killer business idea brewing, maybe you want to be a content creator, maybe you want to be a professional gamer - but perhaps fear is holding you back from taking the leap? Well, dust off your witch's hat and sharpen your entrepreneurial spirit, because it's time to embrace the hauntrepreneur within!

Starting a business can feel eerily similar to entering a haunted house. There are unexpected thrills, lurking doubts, and a constant feeling of, "What's around the next corner?" But just like a hauntrepreneur knows how to design a chilling experience, you can harness the spooky side of entrepreneurship to build something thrilling and successful.

### **TURNING FEAR INTO FUEL**

Fear is a natural part of the entrepreneurial journey. The unknown can feel like a looming monster, but hauntrepreneurs turn this fear into fuel. They identify their anxieties, research solutions, and develop a plan to confront these challenges. Here's another secret: most successful entrepreneurs experience fear. They just don't let it paralyze them. Instead, they channel it into a relentless pursuit of knowledge and preparation.

### **BUILDING A MONSTER OF A BUSINESS PLAN**

Just like a haunted house needs a well-crafted layout to maximize scares, a solid business plan is vital for your hauntrepreneurial success. This plan should be your navigational tool, guiding you through the twists and turns of the business world. Take time to research your market, identify your target audience, and develop a unique selling proposition (USP) that makes your business stand out. A strong financial plan is also essential, outlining your funding needs, projected revenue, and potential obstacles.

### **EMBRACE THE UNEXPECTED**

No haunted house operates without a few surprises. In the world of business, these surprises can come in the form of unexpected challenges or unforeseen opportunities. The hauntrepreneur thrives on adaptability. They develop contingency plans to navigate roadblocks and keep their business on track. But they also recognize that sometimes detours can lead to hidden gems. Be open to opportunities that arise unexpectedly, they may just be the secret ingredient that takes your business to the next level.

### **FIND YOUR TRIBE OF GHOULISHLY GOOD SUPPORT**

No hauntrepreneur goes it alone. Building a strong support network is crucial for success. Seek out mentors who can offer guidance, connect with other entrepreneurs who understand the challenges you face, and assemble a team of talented individuals who share your vision. This tribe will be your cheering section during victories and your shoulder to cry on during setbacks. (Oh yes, there will be crying, frustrations and stress.) Remember, even the scariest haunted houses rely on a dedicated crew to make the magic happen.

Unleash your inner hauntrepreneur! Step into the unknown with a healthy dose of fearlessness, a well-defined plan, and a supportive network by your side. Embrace the spooky side of entrepreneurship, and watch your business dreams transform into a roaring success.
